## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

Claim(s) **8** is/are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing (Reference the May 15, 2008 memorandum issued by Deputy Commissioner for Patent Examining Policy, John J. Love, titled "Clarification of 'Processes' under 35 U.S.C. 101"). The instant claims neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process.

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 (and dependent claims 2-7) and claim 8 recite "a periodic signal detecting section for deciding whether or not time progression of the level having been calculated by the level calculating section has periodicity". The examiner is not clear as to what is meant by "time progression of the level". The level calculating section calculates a level of a signal output from the frequency analyzing section. There is no mention of time progression of the level. Clarity is needed. The

examiner cannot address the claims properly until it is clear what is meant by this limitation.
